## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4,5 & 23 are rejected under 35 U.S.C. 102(b) as being anticipated by R.J. Hackbart et al (US Patent No. 3,386,262). Hackbart discloses a refrigeration apparatus with dual compressors and comprising a suction connector (60) connect to the outlet of evaporator (20) and disposed in substantial flow alignment thereby inherently capable of disturbing refrigerant vapor in an axial flow direction.

### ***Allowable Subject Matter***

Claims 2,3,6-22 & 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
